

January 11th, 2022

Dear Valued YANG MING Customer:

EC4: MV Madrid Bridge 016E/W

This is to inform you that MV Madrid Bridge, serving in our East Coast 4 (EC4) Service, suffered container collapse in the North Atlantic Ocean on January 7, 2022 during transit to her next port of call in New York, USA.

Investigations are ongoing and further information will be provided once available. The vessel schedule is expected to be delayed and her schedule recovery plan is currently underway which will be advised subsequently.

Should you have any questions or concerns, please contact your sales account representative for additional information.

Sincerely,

Yang Ming Marine Transport Corporation
